

Lesson 12

Which or That

1. Vocabulary

1. source

2. hydroelectric

3. annual

4. tadpole

2. Lesson: Strange Rain

Do you like rain? Why?

Not so many people like rain because it makes them not free to go

wherever they like. ¹ But rain, which is part of nature, is an important source of fresh water in the world. ² It also gives water to plants, which give us oxygen. ³ It powers hydroelectric plants, which give us electricity.

⁵ But there are some kinds of rain that we don't normally experience. ⁶ In Honduras for example, people experienced rain that included big fish and lasted for 2 to 3 hours. ⁷ When the rain stopped, they were able to cook and eat the fish that they picked from the ground after the rain. ⁸ In 1998, an annual festival that is celebrated to thank the Rain of Fish started.

⁴ In Japan, tadpole, fish, and frog rains, which lasted for some weeks were recorded in 2009. In India, there was also a rain of fish. And there are more other cases of strange rain in the world.

3. Practice

A.

Read the sentences below and compare them with the numbered sentences in the story.

4. Grammar

Which or That

Which and That are used to add information for places, things, or ideas.

Which = when the information is just additional (or extra information)

Example:

The Eiffel Tower, **which** was designed by Gustav Eiffel, is France's major attraction.

That = when the information is important to understand the sentence

Example:

Please give me the paper **that** I gave you awhile ago.
